

GridLight Field Tool

Free
till 8/2021

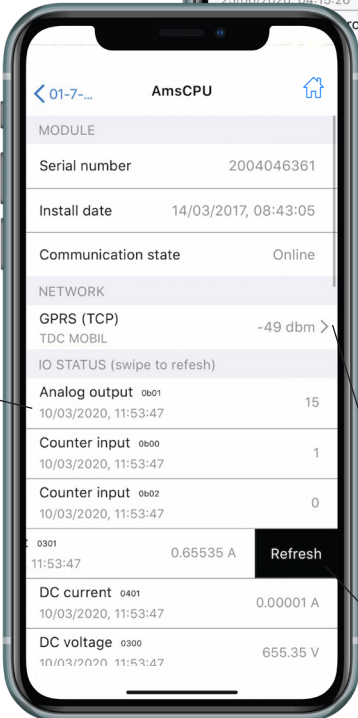

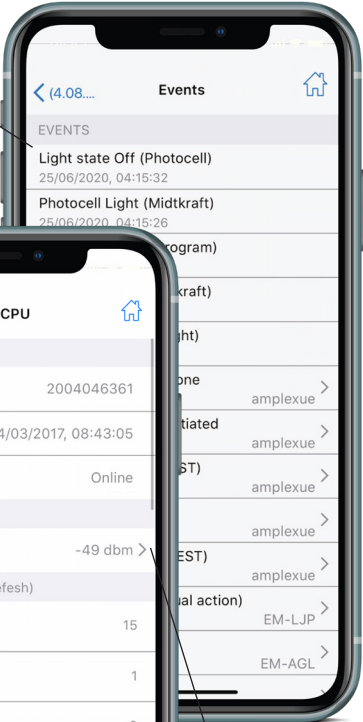

When working in the field, the new GridLight Field Tool will give you direct access to all relevant information about your streetlight management system. Quickly find equipment, use your smartphone as a multimeter, easy replacement of equipment monitor for alarms and who did what to the lights. Available for both Apple and Android.

All measurement points for all modules are available using the GridLight Field Tool. Easy access to alarms, events etc. Put the unit in "Maintenance mode" - this will suppress alarms during service and installation.
